Data sheet of the play “Non Vedo Innocente Amor!” (I Can’t see innocent love!)

Title: Non Vedo Innocente Amor! **Category:** Comedy **Author:** Sebastiano Bazzichi **Director:** Sebastiano Bazzichi

SYNOPSIS

A particular hourglass was stolen. A marriage was organized. A crime was discovered. A huge problem unites all this. Six Renaissance characters will join forces to solve the catch and also their personal problems. But the challenge is more difficult than expected. Struggling to achieve their goals, the characters will reveal, to the sound of laughter, a resonant criticism of some defects of the society of that time, but also drastically current.

Acts: One act

Duration: 1h 20'

Actors: 6

Performers: Sebastiano Bazzichi, Sabrina Maggiani, Paolo Cutroni, Jasmine Volpi, Alex Vigeni, Laura Morelli.

Legal protection of authors' right : Play and music are not under legal protection.

TECHNICAL SPECIFICATIONS

The scene is completely empty. Black backdrop, black wings. From time to time the characters bring to the stage some objects: an armchair, two chairs, two fruit crates, two candle holders, two candles (LED), a wicker basket, an hourglass.

Minimum Scenario Space: Width 11' 5" - Depth 9' 9"

Assembly time: 30 min Dismantling time: 15 min

This sheet shows the optimal requirements but the scene can be partially adapted to the available spaces. In this case contact the company for a preliminary evaluation. (Sebastiano 335-8097874).

The company requires the following technical equipment:

LIGHT SYSTEM:

- Basic lighting system. The scene will be illuminated in a balanced way throughout the stage space. Expected lowering and increase in intensity and, where possible, changes in color temperature (with colour filters and / or LED headlights)

SOUND SYSTEM:

- Audio system with amplification for broadcasting stage music.

TECHNICAL STAFF:

- The Company has its own Audio-Video technician. The presence of at least one technical manager of the theater during the lights setting and the connection to the audio / light system is required.

- The Company provides for assembly-disassembly.
